

Environmental Policy Statement

Our Service Objective

To continually improve our environmental performance and to promote good environmental practice

Our Business

To deliver sustainable and environmentally compliant services in partnership with our customers.

Environmental Policy

Welcomehome Cleaning recognises the importance of environmental protection and is committed to operating its business responsibly and in compliance with all relevant environmental regulations, legislation and approved codes of practice relating to its activities, operations and services.

It is the declared policy of Welcomehome Cleaning to carry out all measures reasonably practicable to identify and comply with all relevant environmental regulations, legislation, and requirements relating to its Environmental Aspects.

Welcomehome Cleaning will strive to continually improve its environmental performance through the implementation of the following actions:

- Assessment and regularly re-assessment of the environmental effects of the organisations activities.
- Assessment and regularly re-assessment of the organisations environmental objects and targets.
- Training of all employees and management in environmental issues.
- Minimisation of the production waste.
- Minimisation energy waste
- Promotion of the use of recyclable and renewable materials.
- Reduction of limitation of the production of pollutants to water land and air.
- Control noise emissions from operations.
- Minimisation of the risk to the general public and employees from operations and activities undertaken by the organisation.

This policy is communicated to all employees, and customers.
